FOR IMMEDIATE RELEASE

**Midwest Medical Earns First Place Win in
2026 *Southland's Best Readers' Poll Awards***

*Southwest Suburban Practice Named Best Weight Loss Center and
Earns Recognition in the Medical Spa Category*

ORLAND PARK, IL — September 25, 2026 — [Midwest Medical Weight Loss & Aesthetics](#), an integrative medicine, aesthetics and wellness practice with locations in Orland Park and Frankfort, has been named the first-place winner in the 2026 Southland's Best Weight Loss Center category today. The practice also earned third place in the Medical Spa category.

Southland's Best is an annual readers' poll celebrating standout businesses, organizations and professionals throughout Chicago's Southland. First-, second- and third-place winners are selected across a wide range of community and business categories.

"To earn these distinctions—and be recognized for both weight loss and medical aesthetics—is incredibly meaningful to our entire team," said Angela Dugo-Munizzi, APN-FPA, FNP-BC owner and clinic director of Midwest Medical. "It reflects our commitment to putting patients first, listening to their needs and providing personalized care that supports how they want to look, feel and live."

Midwest Medical offers provider-monitored weight loss programs, nutrition guidance, functional health and integrative medicine, along with injectables, fillers, laser treatments, advanced skincare, microneedling, chemical peels, IV therapy, infrared sauna, lymphatic drainage and hyperbaric oxygen therapy.

The recognition comes during a milestone year for Midwest Medical. The practice celebrated the fifth anniversary of its Orland Park location earlier in 2026, while its Frankfort location—opened in 2023—

continues to expand access to its weight loss, integrative medicine, aesthetic and wellness services throughout the southwest suburbs of Chicago.

“We are grateful to every patient and community member who voted for us,” Dugo-Munizzi added. “This recognition belongs to our team, whose expertise, compassion and dedication have shaped Midwest Medical into what it is today.”
